# Surface Mount **Monolithic Amplifier**

## DC-2 GHz

## **Product Features**

- Wideband, DC to 2 GHz
- Exact footprint substitute for Avago's MSA-0286
- Internally Matched to 50 Ohms
- Unconditionally stable
- Protected by US Patent, 6,943,629

## **Typical Applications**

- Cellular
- PCN instrumentation
- VHF/UHF receivers/transmitters

+RoHS Compliant The +Suffix identifies RoHS Compliance. See our web site for RoHS Compliance methodologies and qualifications

### **General Description**

MAR-2SM+ (RoHS compliant) is a wideband amplifier offering high dynamic range. It has repeatable performance from lot to lot. It is enclosed in a Micro-X package. MAR-2SM+ uses Darlington configuration and is fabricated using InGaP HBT technology. Expected MTTF is 10,000 years at 85°C case temperature.

#### simplified schematic and pin description

| Function         | Pin Number | Description  |
|------------------|------------|--|
| RF IN            | 1          | RF input pin. This pin requires the use of an external DC blocking capacitor chosen for the frequency of operation.  |
| RF-OUT and DC-IN | 3          | RF output and bias pin. DC voltage is present on this pin; therefore a DC blocking capacitor is necessary for proper operation. An RF choke is needed to feed DC bias without loss of RF signal due to the bias connection, as shown in "Recommended Application Circuit". |
| GND              | 2,4        | Connections to ground. Use via holes as shown in "Suggested Layout for PCB Design" to reduce ground path inductance for best performance.  |

A Performance and quality attributes and conditions not expressly stated in this specification document are intended to be excluded and do not form a part of this specification document. B. Electrical specifications and performance data contained in this specification document are based on Min-Circuit's applicable established test performance criteria and measurement instructions. G. The parts covered by this specification document are subject to Mini-Circuit standard limited warranty and terms and conditions (collectivity, "Standard Terms"); Purchasers of this part are entitled to the rights and benefits contained therein. For a full statement of the Standard Terms and the exclusive rights and remedies thereunder, please visit Mini-Circuit's website at www.minicircuits.com/MCLStore/terms.jsp

#### Electrical Specifications at 25°C and 25mA, unless noted

| Parameter   |               | Min.             | Тур. | Max.  | Units |
|---|---------------|------------------|------|-------|-------|
| Frequency Range*                                  |               | DC               |      | 2     | GHz   |
| Gain  | f=0.1 GHz     | _                | 12.5 | _     | dB    |
|   | f=1 GHz       | —                | 12.0 | _     |       |
|   | f=2 GHz       | 8.5 <sup>2</sup> | 11.0 | _     |       |
| Input Return Loss                                 | f=DC to 2 GHz |                  | 17.5 |       | dB    |
| Output Return Loss                                | f=DC to 2 GHz |                  | 17.5 |       | dB    |
|   |               |                  |      |       |       |
| Output Power @ 1 dB compression                   | f=1 GHz       |                  | +7   |       | dBm   |
| Output IP3  | f=1 GHz       |                  | +22  |       | dBm   |
| Noise Figure                                      | f=1 GHz       |                  | 3.7  |       | dB    |
| Recommended Device Operating Current              |               |                  | 25   |       | mA    |
| Device Operating Voltage                          |               |                  | 5.0  |       | V     |
| Device Voltage Variation vs. Temperature at 25 mA |               |                  | -2.7 |       | mV/°C |
| Device Voltage Variation vs. Current at 25°C      |               | 16.7             |      | mV/mA |       |
| Thermal Resistance, junction-to-case <sup>1</sup> |               | 164              |      | °C/W  |       |

\*Guaranteed specification DC-2 GHz. Low frequency cut off determined by external coupling capacitors.

#### **Absolute Maximum Ratings**

| Parameter             | Ratings        |  |
|-----------------------|----------------|--|
| Operating Temperature | -40°C to 85°C  |  |
| Storage Temperature   | -55°C to 100°C |  |
| Operating Current     | 60mA           |  |
| Power Dissipation     | 325mW          |  |
| Input Power           | 13dBm          |  |

Note: Permanent damage may occur if any of these limits are exceeded. These ratings are not intended for continuous normal operation. <sup>1</sup>Case is defined as ground leads. <sup>2</sup>Full temperature range.

Notes
A. Performance and quality attributes and conditions not expressly stated in this specification document are intended to be excluded and do not form a part of this specification document.
B. Electrical specifications and performance data contained in this specification document are based on Mini-Circuit's applicable established test performance criteria and measurement instructions.
C. The parts covered by this specification document are subject to Mini-Circuits standard limited warranty and terms and conditions (collectively, "Standard Terms"); Purchasers of this part are entitled to the rights and benefits contained therein. For a full statement of the Standard Terms and the exclusive rights and remedies thereunder, please visit Mini-Circuits: website at www.minicircuits.com/MCLStore/terms.jsp

## **Product Marking**

Markings in addition to model number designation may appear for internal quality control purposes.

#### Additional Detailed Technical Information

Additional information is available on our web site. To access this information enter the model number on our web site home page.

#### Performance data, graphs, s-parameter data set (.zip file)

#### Case Style: WW107

Plastic micro-x, .085 body diameter, lead finish: tin/silver/nickel

#### Tape & Reel: F4

7" Reels with 20, 50, 100, 200, 500, 1K devices 13" Reels with 2K, 4K devices

#### Suggested Layout for PCB Design: PL-253

Evaluation Board: TB-411-2+

#### **Environmental Ratings: ENV08T3**

## **Recommended Application Circuit**

Test Board includes case, connectors, and components (in bold) soldered to PCB
